

Third International Conference on
**Polyphenols applications in
Nutrition and Health**

**Satellite Symposium on Natural Antioxidants and
Polyphenols : Valorization from Fruit &
Vegetable Wastes**

St Julian, Malta,
October 26-27 2006

INDEX

| | |
|--|-----------|
| Final Programme 3 rd International Conference on Polyphenols Applications in Nutrition and Health | 3 |
| Session 1: Latest Advances on Polyphenols | 7 |
| Oxidative Stress, Mitochondria, and Chronic Diseases : Can Antioxidants break this vicious circle? Dr Marvin Edeas | 8 |
| Overview and advanced results on polyphenols and their propertie. Pr Olivier Dangles | 9 |
| Polyphenols behind the antioxidant effect: insights for nutraceutical and cosmetic function. Pr Fulvio Ursini | 10 |
| Problems of quantitative and qualitative estimation of polyphenols. Dr Alegria Carrasco Pancorbo | 11 |
| Session 2: Beneficial effects of polyphenols on chronic diseases and ageing | 12 |
| Use of polyphenols against cardiovascular diseases. Dr Ramaroson Andriantsitohaina | 13 |
| Effect of polyphenols from wine on hormone-related cancer treatment. Pr Joseph Vercauteren | 14 |
| Use of polyphenols against cancer : role of resveratrol and grapevine extracts. Pr Norbert Latruffe | 15 |
| Phytochemicals and hormone dependant diseases: latest advances on menopause and osteoporosis. Pr Aedin Cassidy | 17 |
| The multiple beneficial properties of fruits and vegetables in brain ageing: turning back the ravages of time. Dr Jim Joseph | 18 |
| Session 3: Applications of polyphenols in cosmetic industry | 20 |
| Polyphenols, skin ageing and Cosmetics : Dream or Reality ? Mr Patrice André | 21 |
| Obtaining a natural cocoa powder rich in polyphenols: characterization and bioavailability. J. Arcos | 23 |

| | |
|---|-----------|
| New tool to evaluate the electron transfer capacity of polyphenols. J. L. Torres | 25 |
| De novo ceramide biosynthesis is involved in resveratrol-induced inhibition of ornithinedecarboxylase activity. S. Ulrich | 26 |
| Session 4: Applications of polyphenols in food industry | 27 |
| Bioavailability and efficiency of Polyphenols. Dr Marie-Josèphe Amiot-Carlin | 28 |
| What are the impacts of polyphenol interactions with other molecules in food? Dr Véronique Cheynier | 29 |
| Application of polyphenols in food industry: flax lignans. Dr Bernard Schmitt | 30 |
| Session 5: Polyphenols & food conservation | 32 |
| Uses of Polyphenols in seafood conservation. Dr Carmen Gómez-Guillén | 33 |
| Uses of polyphenols and phenolic acid in meat, dairy and berry product conservation. Pr Marina Heinonen | 35 |
| Session 6: Antioxidant-Rich Beverages: Innovation and Trends | 37 |
| Latest advances in Polyphenols uses in drink industries. Pr Sonia Collin | 38 |
| Bioavailability of Chlorogenic Acid. S. Lafay | 39 |
| Study of the antimicrobial action on human pathogenic bacteria and effect on viability of mammalian normal and tumor cells of polyphenols from argentinean rosemary plants. S. Moreno | 40 |
| Effects of tea catechins on body fat in humans. A. Chikama | 41 |
| Oligopin the original strengths from pine. J-L Assouad | 42 |
| FLORA, flavonoids and related phenolics for healthy living using orally recommended antioxidants. K. Petroni | 43 |
| Coenzyme 1 (N.A.D.H.): the strongest biological antioxidant as active ingredient for supplements, cosmetics and functional food. J Birkmayer | 44 |
| 1st International Symposium on Natural Antioxidants and Polyphenols: Valorization from Fruits & Vegetables Wastes | 45 |
| Future of Antioxidants Applications in Human Health. Dr Marvin Edeas | 47 |
| By-products and wastes of plants food processing as a source of functional compounds. Dr Andreas Schieber | 48 |
| Current and emergent methods of natural antioxidant extraction from fruit and vegetables wastes. Dr Dietmar Kammerer | 49 |
| Natural Antioxidants from fruit and vegetable by-products versus synthetic antioxidants Dr Rosa Lamuela-Raventos | 50 |
| Development of nutraceuticals from grapes and cherries wastes. A. Teresa Serra | 51 |
| Atheroprotective properties of olive mill waste and its constituent polyphenols. J. Cohn | 52 |
| Enzyme-assisted extraction of polyphenols from grape (vitis vinifera L.) Pomace. A. Claus | 53 |
| An industrial approach for the selective recovery of biophenols from agro-food wastes. L. Setti | 54 |

| | |
|---|-----------|
| Poster section | 55 |
| The "Quercetin Therapy" And The DNA Damage Induced Ex Vivo By Etoposide In Bone Marrow Healthy And Leukemic Cells Isolated From The Brown Norway Rats. | |
| A. Cierniak | 56 |
| Interactions Of Genistein Derivatives With Lipid Bilayers As Measured By Microcalorimetry. A.B. Hendrich | 57 |
| Polyphenol extracts from prenasal blanc white grape (<i>vitis vinifera</i>) pomace. | |
| A. Llobera | 58 |
| ABTS Radical-Driven Oxidation of Polyphenols: Identification of covalent adducts and ABTS degradation products. A.M. Osman | 59 |
| Theoretical study of the polyphenolic components of the stem bark extract from <i>Mangifera indica</i> L. Vimang. B. M. Y. Rosas | 60 |
| Comparative theoretical study of the biologically active xanthenes: Mangiferin, Alfa and Gamma Mangostin, and Noratiriol, with the Wedelolactone molecule. | |
| B. M. Y. Rosas | 61 |
| Improvement of anthocyanins extraction from <i>Hibiscus sabdariffa</i> by coupling solvent and DIC process. B. Ben Amor | 62 |
| Polyphenol-enriched fractions from Sicilian grape pomace: HPLC-DAD analysis and antioxidant activity. C. Spatafora | 63 |
| Production Of Pinotage Wine With Enhanced Polyphenol Content And Antioxidant Capacity. D. De Beer | 64 |
| Characterization of monovarietal Sicilian olive oils. Diego Planeta | 65 |
| Contained in polyphenols of sicilian table olives. Diego Planeta | 65 |
| Phytochemicals as modulators of neurodegenerative diseases. | |
| D. Vauzour, K. Vafeiadou | 66 |
| Citronellic acid-sodium salt: a new preservative agent. F. La Cara | 67 |
| Ascopyrone: a new powerful inhibitor of tyrosinase. F. La Cara | 68 |
| Antioxidant activity and fractionation of the major polyphenols from <i>Byrsonima crassifolia</i> leaves. H. Rogez | 69 |
| Differences of adsorption affinities of three phenolic compounds families on four synthetic resins. H. Rogez | 70 |
| Recovery of flavonoid-rich fractions from <i>ingoa edulis</i> extracts using macroporous resin in a fixed bed system. H. Rogez | 71 |
| Functional components of Roselle (<i>Hibiscus sabdariffa</i>) seeds. I. Amin | 72 |
| Polyphenolic profiles and antioxidant activity in apple cultivars grown in Poland. | |
| I. Bober | 73 |
| Polyphenols and antioxidant activity in different fruits juice. I. Bober | 74 |
| Antioxidant and choleric properties of radish sprout extract. J. Barillari | 75 |
| Antioxidant defenses and brain ageing. J. Emerit | 76 |
| Prediction of biological effects of phenolic derivatives (P) against carcinogenesis via their reduction potential E (P•+/P). R.V. Bensasson, J. Emerit | 77 |
| Study of antioxidant activity of champagne wine phenolic and derivative acids. | |
| J. Vercauteren | 78 |
| Dietary Antioxidants Regulate High Glucose-Induced Apoptosis. J.W. Park | 79 |
| Mass spectrometric characterization of phenolic acids and flavonoids in dandelion (<i>Taraxacum officinale</i> WEB. ex WIGG.) root and herb juice (<i>Taraxaci radix cum herba</i>). | |
| K. Schütz, A. Schieber | 80 |
| Quantification of Caffeoylquinic acids and Flavonoids in artichoke-based dietary supplements and pharmaceuticals by high-performance liquid chromatography. | |
| K. Schütz, A. Schieber | 81 |
| Characterization of Alk(en)ylresorcinols in Mango (<i>Mangifera indica</i> L.) Peels by HPLC-APCl-MSn. M. Knödler | 82 |
| The Influence of quercetin on genotoxic action of etoposide in spleen and bone marrow cells of rats with acute myeloid leukaemia. M. Papiez | 84 |
| Obtaining and characterising a range of cocoa extracts rich in Polyphenols | |
| M. Pasamar | 85 |
| Effect of gamma radiation on total phenolics, trypsin inhibitors and tannins compounds in 5 different soybeans cultivars. M.C. Souza | 87 |
| Structure-property studies on the antioxidant activity of the flavonoid quercetin. | |
| M. Tamba | 88 |

| | |
|--|------------|
| Perspectives of drugs with polyphenolic components to treat chronic prostatitis. | |
| N.V. Kotelevets, L.V.Yakovleva | 89 |
| Features of quercetin and elagotannins containing drugs modulating action on activity glutathione-cycles enzymes. L.V. Yakovleva, N.V.Kotelevets | 91 |
| Efficacy of new hemorheological drug ascovertin in patients with ischemic disease. | |
| N. Tyukavkina | 92 |
| Experimental and clinical studies of using the diquertin and ascorbic acid complex for preventing adhesions after laparoscopic operations on ovaries. | |
| N. Tyukavkina | 93 |
| Antioxidant properties and phenolic profiles of mashua (<i>tropaeolum tuberosum</i> ruíz & pavón) tubers, a promising andean crop. R. Chirinos | 94 |
| Blueberry fruit extracts suppress oxidative stress induced damage in skeletal muscle cells. R.D. Hurst | 95 |
| The effect of dietary curly kale on serum lipid profile in laboratory rats. | |
| RB. Kostogrys | 96 |
| The effect of dietary brussels sprouts on antioxidative enzymes in laboratory rats. | |
| RB. Kostogrys | 97 |
| Lasia Spinosa: an underutilized vegetable. S Ghafoor, S. Ekanayake | 98 |
| Polyphenol content of fruits and vegetables. Establishment of a database and estimation of Polyphenol intake in the French diet. S. Georgé | 99 |
| Oxidative DNA damage and estrogenic activity induced by resveratrol and its metabolite | |
| S. Kawanishi | 100 |
| Powergrape®, a grape extract rich in procyanidins, reduce exercise-induced oxidative stress of professional soccer player. S. Lafay | 101 |
| Polyphenols from Rosemary: Effect on phytophathogenic viruses. S. Moreno | 102 |
| Advance on the biological properties of polyphenols from rosemary: an approach to their uses in health. S. Moreno | 103 |
| Synergistic effect of green tea polyphenols with CoQ9 in rats. M. Afzal | 104 |
| Antioxidants recovery from olive mill wastewaters. S. Sayadi | 105 |
| Evidence of neuroprotection by a hydroxytyrosol-rich olive mill waste water extract <i>in vitro</i> and <i>ex vivo</i> . S. Schaffer | 106 |
| Influence of processing on polyphenols and antioxidant capacity of apple juice and wine. | |
| S. Skapska | 108 |
| In vitro cytotoxicity of red beet juice to human cancer cells. W. Grajek | 110 |
| Antioxidant Protection By Beetroot And Aronia Extracts In Obese And Non-Obese Individuals, In "In Vitro" Model System. W. Grajek | 111 |
| In vitro accesibility and absorption of betanin from digested red beet root juice. | |
| W. Grajek | 112 |
| Stabilisation of refined oils with natural antioxidants recovered from Chemlali olive leaves extract. M. Bouaziz | 113 |
| The influence of polyphenols and other dietary components on iron absorption by intestinal cells. AR Aswir | 114 |
| Mauritian tea extracts : Polyphenolic composition, antioxidant propensity and prophylactic application against cardiovascular diseases. T. Bahorun | 115 |
| Determination of vitamin C content in the pulp and peel of various stage of maturation of camu-camu (<i>Myrciaria dubia</i>) fruits. K.O. Cohen | 116 |
| Assessing diversity of anthocyanin levels in various progenies of Assai. | |
| K.O. Cohen | 117 |
| Laminin pretreatment attenuates inhibitory effects of epigallocatechin gallate (EGCG) via blocking of egcg penetration into cells. D.W. Han | 118 |
| A phase II study with antioxidants, both in the diet and supplemented, pharmaconutritional support, progestagen, and anti-cyclooxygenase-2 showing efficacy and safety in patients with cancer-related anorexia/cachexia and oxidative stress. | |
| G. Mantovani | 119 |
| Pilot double blind placebo controlled study of cranberry on healthy women. | |
| J. Heinrich | 120 |
| Effect of different processing methods on polyphenol and tannin levels in selected whole cereals and pulses consumed in India. N. Aggarwal | 121 |
| Health benefits and industrial application of tea polyphenols—global perspectives. | |
| N. Ghosh Hajra | 122 |

Novel low molecular proanthocyanidin dietary biofactor Oligonol: Modulation of oxidative stress and neuroprotective, chemopreventive and food application potentials.

O. I Aruoma 123

Phenolic composition and antioxidant capacity in new citrus hybrids.

P. Rapisarda 124

Antioxidant effect of three ethanolic plants' extracts on lipid peroxidation in cultured HeLa cells. **R. Ben Mansour**

125

Abstract Book Purchase

I would like to purchase the following abstract book (including shipment fees)

- October 26-27 2006: Third International Conference on Polyphenols
Applications in Nutrition and Health 250 €HT

TOTAL Amount : **TTC**

Mrs, Ms, Mr First Name :
Last Name :
Company :
Function :
Address:.....
.....
Zip Code :
City:.....
Country :.....
Phone : Fax :
